WHAT STUDENTS SAY

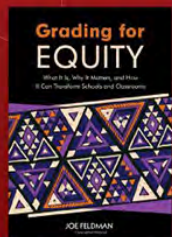

"This class was amazing. The subject matter is fascinating, and Dr. Vokic presented it so well. She is an amazing professor who is clearly highly knowledgeable in her field, as well as skilled in stimulating students' interest in fun, engaging ways."

Wrapping Up a Successful School Year

As the 2018-19 school year comes to an end, **Communities In Schools of the Dallas Region, Inc. (CISDR)** staff are hard at work helping thousands of students to stay in school and achieve in life. This spring, **418 high school seniors** have benefited from individualized CISDR support services such as tutoring, counseling, home visits, and parent intervention. The CISDR campus staff play a vital role in preparing these seniors to graduate and be ready for college and career success.

Email Newsletters

I have extensive experience creating **email newsletters**, writing copy, choosing images, and laying everything out in Constant Contact.

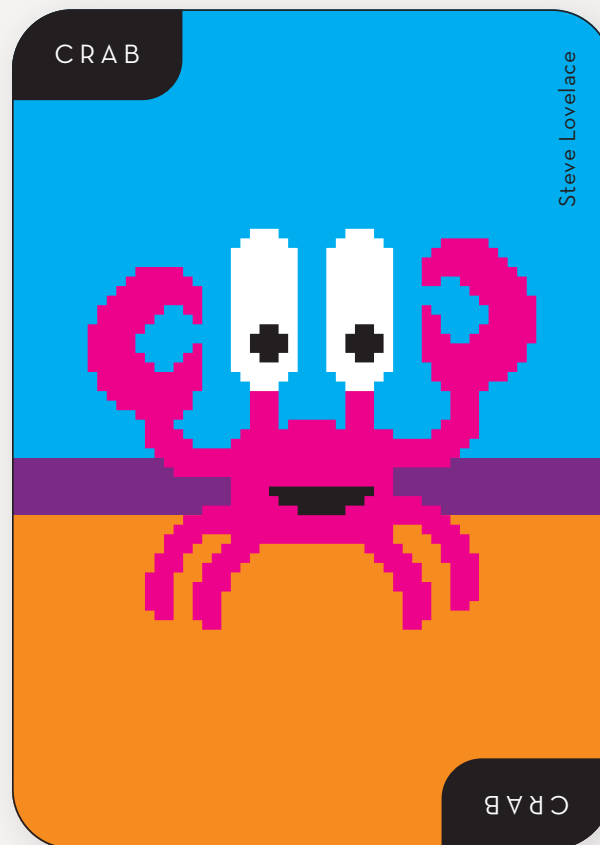

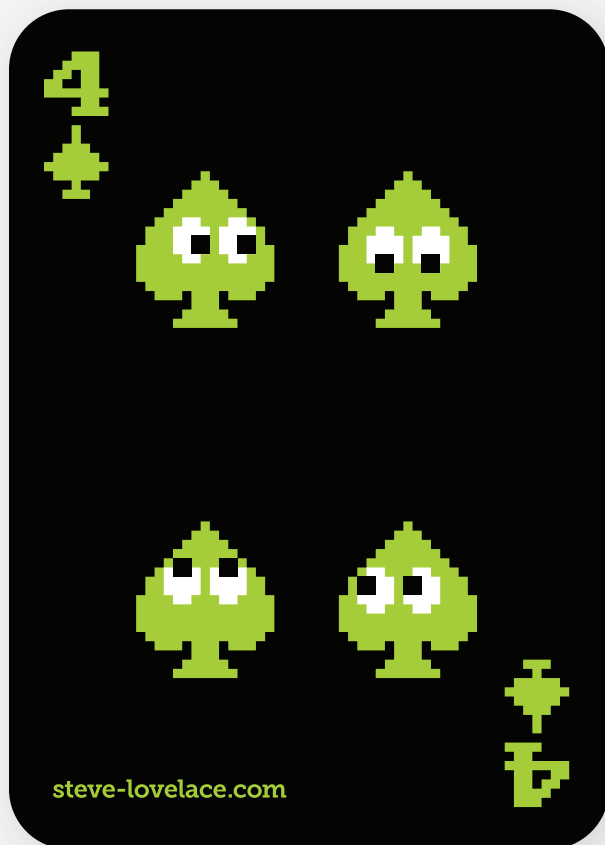

The Corporate States of America

I designed the [Corporate States of America](#) map for my blog back in 2012. It later went viral, getting featured in BuzzFeed, Mental Floss and the Huffington Post. Here is a poster design I made available for sale in 2013.

Tee Shirts

In my spare time, I like to design [tee shirts](#), which I sell on Woot, RedBubble, and Society6.

Playing Cards

Since 2017, I have collaborated in an community art project through AIGA DFW, in which we design a deck of *playing cards*, with each designer taking one card. Here are a few of my contributions.

Digital Portraits

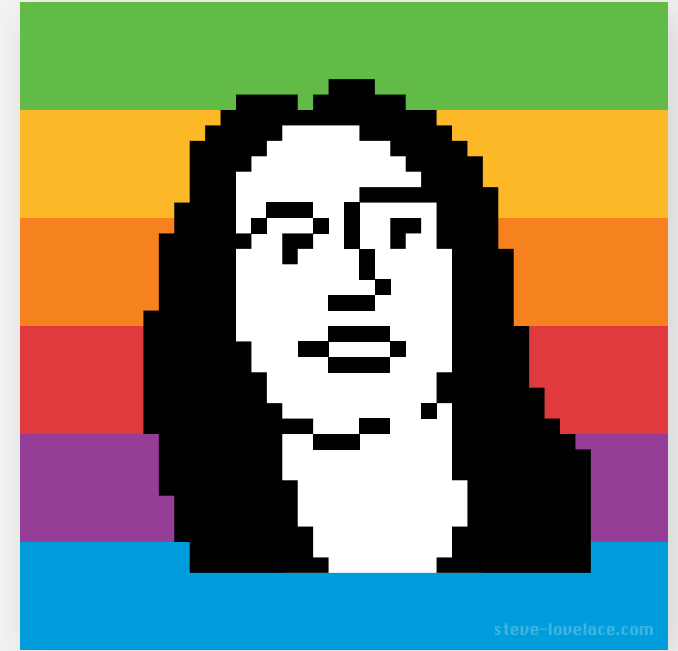

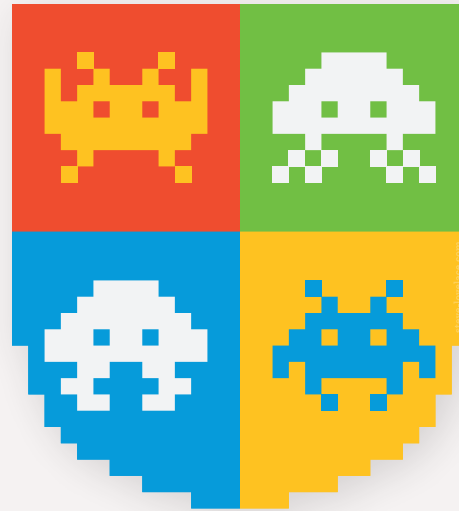

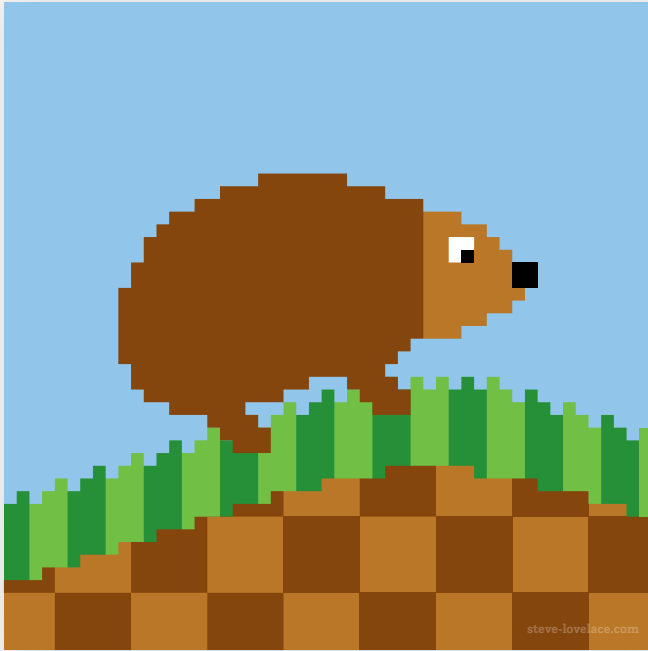

One of my favorite artistic techniques is to create *digital portraits* using just a few shades of gray, using highlights and shadows to create a bold screen-printed look.

Pixel Art

My art style is heavily influenced by old video games. I like making *pixel art* that communicates complex concepts with a small number of colors and blocks.

Videos

During my time at Communities In Schools, I created several [videos](#) for our fundraising campaigns, using Adobe Premiere Pro to trim video clips, animate still images, and add music and graphics to each presentation.
